

TURN OFF YOUR AERATION SYSTEM AND SAVE MONEY WITH GREENCLEANPRO

Aeration systems run 24 hours a day, 7 days per week, 8 months per year on average to help eliminate algae buildup in ponds and lakes. Most times further action is needed on top of paying the rising electricity costs.

Stop doing twice the work and paying twice the price. Start using GreenCleanPRO Granular Algaecide/ Fungicide.

When a pond is in balance and there is no apparent algae, a golf course is able to reduce the amount of time their aeration system is running from 24 hours per day to business hours only. If the systems were run during business hours only, electrical costs can be reduced by almost half.

REALIZE THE SAVINGS WITH GREENCLEANPRO. YOU CAN SAVE UP TO \$2,500.00 A YEAR.

Your aeration system can range anywhere from \$909.00 to \$6,624.00 depending on your unit size and amps. On average, one bag of GreenCleanPRO will provide a minimum of two to a maximum of six maintenance applications. If GreenCleanPRO is applied monthly in the spring and fall and bi-monthly during the summer, the average golf course will need six bags of GreenCleanPRO for the year.

GreenCleanPRO Granular Algaecide

An activated peroxygen product that inactivates planktonic and filamentous algae on contact. Through the power of oxidation, algae die within hours of being treated. You can actually see it working as you apply GreenCleanPRO to the algae.

- ✓ EPA Registered
- ✓ No Use Restrictions
- ✓ Alternative to Copper Chemicals
- ✓ NSF/ANSI Standard 60 Certified for Use in Drinking Water
