

SinkMaster: SaniDate® 5.0

Wall-Mount Mixing and Dosing System

The SinkMaster enhances the performance of SaniDate 5.0 with consistent and concise dosing and reduces risk by eliminating chemical handling. Each SinkMaster comes with hand-picked tips for proper dilutions with SaniDate 5.0.

Produce Washing

Produce washing applications are faster and more accurate with the SinkMaster and SaniDate 5.0. SaniDate 5.0 is approved for raw produce washing in dump tanks, flumes, sprays, etc. With no rinse, residue or discharge regulations, applications can be made with ease.

Tip Selection Chart			
Produce Washing	60 PPM	0.008	Olive-Green
	80 PPM	0.007	Red Purple

Sanitation and Disinfection

SaniDate 5.0 is the best alternative to harmful bleach and quaternary ammonium products for non-porous food-contact surfaces and equipment. It is EPA-exempt from the requirement of tolerance, as there are no residues after treatment. Ensure proper sanitation and disinfection after a cleaning step to control microorganisms as a spray, foam or fog.

Tip Selection Chart			
Sanitation	150 PPM	0.012	Lt. Grey
Disinfection	230 PPM	0.015	New Red

Features & Benefits
